

## MILDEW & STAIN REMOVER

Mold stain remover. Ready-to-use liquid product for the removal of black stains and bad odors. Ideal for removing stains on tiles, grout, painted surfaces, cement tiles, etc.

## BATHROOM CLEANER

Safe sanitary cleaner for toilets, bathrooms, and other sanitary fixtures. Removes built-up dirt, soap residue, rust stains, bacteria, and lime deposits. Disinfects. Also suitable for chrome-plated surfaces.

## ECO DEGREASER

Specially developed for cold (or hot) degreasing in the food processing industry and commercial kitchens. The product is safe to use on aluminum, metals, glass, paint, and seals when diluted and rinsed. Does not emit corrosive fumes. Biodegradable.

## GARDENIA

Perfumed floor cleaner for the daily maintenance of floors, tiles, marble, plastic surfaces, and all other water-resistant floors. Fully soluble in water. No need to rinse. Has a pleasant Gardenia (Cape Jasmine) fragrance.

## OVEN & GRILL CLEANER

Semi-viscous oven cleaning gel. Provides a long-lasting contact time. Works effectively on vertical walls. Also suitable for cleaning grill plates. Safe for use on iron-containing metal, enamel, and most plastics. Works quickly at high and low temperatures and is non-flammable.

## PINE CLEANER

Foaming Pine Clean Disinfectant. Nature's answer to cleanliness. Eco-friendly and powerful, it tackles grime while being gentle on the planet. Perfect for various surfaces, it's your versatile, planet-friendly cleaning solution.

## MANUAL DISHWASHING

Concentrated dishwashing detergent. With highly active foam for a perfect, streak-free dishwashing experience. Removes grease from dishes and leaves a light lemon scent. Respects the pH balance of the skin. Can also be used as an all-purpose cleaner.

## LA MAN CENTERPULL

La man centerpull kitchen paper makes cleaning up spills and tackling everyday messes effortless. 300M, 1 ply cellulose, 6pcs.

## WHY BUY *La man* ?

### PRODUCED LOCALLY

Buying a local product helps your community and local economy. Your money goes to local workers, suppliers, and your potential customers, not to big companies overseas. With La man you get a great product for a great price. For every 10,000 bottles sold, we donate to a local charity.

### HELP THE ENVIRONMENT

Most cleaning products contain up to 80% water. Importing water is bad for the environment; it contributes to unnecessary (carbon) emissions. Buying a local created product helps to lower your carbon footprint. With La man you choose an eco-friendly, biodegradable alternative with the lowest possible carbon footprint.

### KNOW WHAT YOU GET

We maintain high Quality control. With our lab and our partner ADC, we monitor and check the selected products constantly so your La man does what it is made for. We use natural, biodegradable products. The Curaçao Government has registered and certified our disinfectants.

### RECYCLE PROGRAM

We also have implemented a recycle program and work with several recycling companies (Limpi Curaçao and Green Phenix) to help reduce plastic waste and create a circular economy.
